## Message du président

Chers collègues membres de l'Académie internationale d'histoire de la pharmacie

L'année 2018 est marquée par deux commémorations importantes dans le domaine de l'histoire de la pharmacie. La première est bien sûr la fin de la Grande Guerre où les pharmaciens ont joué un rôle déterminant non seulement sur le front au jour le jour, mais aussi dans le domaine des gaz de combat. Dès l'attaque allemande d'Ypre par le chlore, les pharmaciens et chimistes français furent mobilisés pour trouver des masques de protection et de nouveaux gaz à utiliser contre l'ennemi. Tout au long de la guerre, les pharmaciens français et alliés vont perfectionner les équipements de protection et trouver de nouveaux gaz jusqu'à l'Ypérite et ses équivalents.

Cette utilisation du gaz moutarde ne sera pas sans suite sur le plan médical. En effet, en 1943, deux mille bombes chargées d'ypérite sont entreposées dans les cales d'un navire des forces alliées, le John Harvey, lorsque l'aviation allemande attaque son port d'attache en Italie, le 2 décembre 1943. Le John Harvey explose, libérant du même coup sa cargaison d'ypérite liquide, causant beaucoup de dégâts physiques parmi les troupes cantonnées sur place. Les travaux ultérieurs d'Alexander sur les victimes, et de deux autres médecins de Yale (Goodman et Gilman) vont conclure

que l'ypérite détruit les globules blancs. Il est apparu alors que ce type de composés pouvait être utilisé, après quelques modifications structurales, pour traiter les cancers du système lymphatique, les lymphomes. Une nouvelle molécule dénommée chlorméthine reçoit l'agrément de la FDA en 1949 sous le nom de Mustagen<sup>®</sup>, premier anticancéreux approuvé par la FDA.

La seconde commémoration importante pour la chimie est la publication de la « Table des Affinités », il y a trois siècles, en 1718, par Etienne-François Geoffroy. Cet apothicaire, issu d'une longue lignée d'apothicaires parisiens, était aussi médecin et chimiste. Membre de l'Académie Royale des Sciences (France), et de la Royal Society (Angleterre), il fut chargé des échanges entre les deux institutions, avec l'aide de son correspondant Hans Sloane. Sa publication « *Table des différents Rapports observés en Chimie entre différentes substances* » va rester une référence pour les chimistes pendant plus d'un siècle. Geoffroy y propose une classification des substances chimiques suivant leur plus ou moins grande « disposition à s'unir » à une substance de référence. Cette publication marque une étape importante de l'histoire de la chimie. La table des affinités de Geoffroy fit le tour de l'Europe et elle fut largement diffusée et traduite en latin, ainsi que dans différentes autres langues.

Si vous-même souhaitez souligner des anniversaires importants en 2018 pour l'histoire de la pharmacie, profiter de la prochaine édition du Journal Communications !

## Message from the president

Dear Colleagues, members of the International Academy of the History of Pharmacy

The year 2018 is marked by two important anniversaries relating to the history of pharmacy. The first is of course the end of the First World War, in which pharmacists played an important role, not only on the front lines every day, but also with regard to poison gas weapons. Just after the German attack by chlorine gas at Ypres, French pharmacists and chemists were mobilized to develop protection masks and new gas weapons to be used against the enemy. Throughout the war, French and Allied pharmacists upgraded protection equipment, and found new gases that could be used as weapons such as mustard gas) and its derivatives.

The use of mustard gas was the subject of continuing medical interest after the war. In 1943, 2,000 bombs full of mustard gas were stored inside the funnels of a US Liberty ship, the *SS John Harvey*. The German Air Force attacked the port where it was located, Bari in southern Italy, on 2 December 1943. The *SS John Harvey* exploded, releasing its load of liquid mustard gas. 628 military personnel were hospitalized and 83 of them died. Work on the victims by Dr Alexander, and by two other physicians from Yale (Goodman and Gilman) concluded that mustard gas destroyed white blood cells. It appeared to them that this type of compound could, after some structural changes, be used to treat

cancers of the lymphatic system – lymphomas. A new molecule named chlomethine received FDA approval in 1949 under the trademark Mustagen<sup>®</sup>, becoming the first anti-cancer drug approved by the FDA.

The second important anniversary for chemistry is the publication by Etienne-François Geoffroy of the Affinity Table, three centuries ago in 1718. This apothecary, from a long line of Parisian apothecaries, was also a physician and chemist. As a member of both the French Academy of Sciences and the Royal Society in London he managed the relationship between the two institutions, his correspondent in London being Hans Sloane. His publication, “Table of the different relationship observed in chemistry between various substances”, proposed the classification of chemical substances according to their ability to combine with a reference substance. It remained an important reference work for chemists for more than a century, and is a key milestone in the history of chemistry. The Affinity Table travelled around Europe and was widely disseminated, and was translated into Latin along with several other languages.

If you would like to draw attention to other important anniversaries for the history of pharmacy in 2018 please do not hesitate to submit it for the next issue of Communications, in October of this year !

## Subjects of interest for members

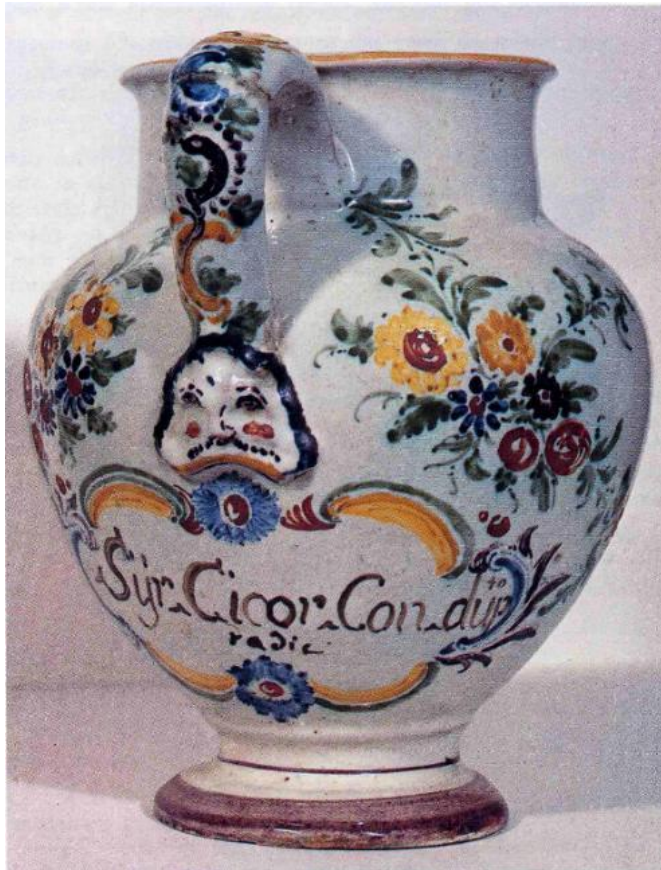

Comme convenu, nous avons ici une nouvelle rubrique pour indiquer les sujets d'intérêt de nos membres. Nous en avons ici quelques uns déjà reçus:

As indicated previously, we already have gathered a few subjects of interest from our members in this new part of Communications:

**Stuart Anderson (UK):** Main interests in the history of pharmacy:

Stuart Anderson's principal research interest is the relationship between pharmacy and the rise and fall of empires. His particular focus is on in the movement in both directions between Britain and her former colonies of pharmacy people (pharmacists as well as others); medicines (crude drugs as well as finished products); and ideas (including pharmacy institutions, education, pharmacopoeias and regulation). Other significant interests include the history of pharmacopoeias, dispensaries and formularies; the history of pharmacy regulation and medicines safety; the history of pharmacy with regard to public health; and the development of pharmaceutical policy in low and middle income countries.

Le principal sujet d'intérêt de Stuart Anderson concerne la relation entre la pharmacie et la montée et la chute des empires. Son attention se porte plus spécialement sur le mouvement (dans les deux sens) des personnes concernées par la pharmacie (pharmaciens et autres) entre la Grande Bretagne et ses anciennes colonies; médicaments (matières premières et produits finis); et idées (incluant les institutions pharmaceutiques, l'enseignement, les pharmacopées et la réglementation). D'autres sujets d'intérêt sont les pharmacopées, formulaires et recueils de médicaments; l'histoire de la réglementation et de la sécurité des médicaments;

**Sirop de Chicorée**  
**Chicory syrup**

l'histoire de la pharmacie concernant la santé publique; et le développement des politiques pharmaceutiques dans les pays à revenus faibles et moyens.

**María del Carmen FRANCÉS CAUSAPÉ (Espagne/Spain) :**

Principaux sujets d'intérêts : **Histoire des médicaments** : plantes médicinales, remèdes secrets, spécialités pharmaceutiques, industrie pharmaceutique ; **Histoire de la profession pharmaceutique** : biographie des pharmaciens, bibliographie pharmaceutique, pharmacies anciennes, associations professionnelles pharmaceutiques ; **Aspects humanistes de la pharmacie** : Pharmacie et Beaux-Arts, musées de Pharmacie et collections de musées, pharmacie et journalisme, législation pharmaceutique, saints de la médecine et de la pharmacie ; Histoire des eaux minérales espagnoles : eaux minérales-médicinales, rôle des médecins et des pharmaciens dans ce domaine.

**Main subjects of interest: History of drugs** : medicinal plants, secret remedies, pharmaceutical specialties, pharmaceutical industry; **History of pharmaceutical profession** : biography of pharmacists, pharmaceutical bibliography, old pharmacies, pharmaceutical associations ; **Humanist aspects of pharmacy** : Art and pharmacy, pharmacy and journalism, pharmaceutical legislation, saints of pharmacy and medicine; **History of Spa from Spain** : mineral and medicinal waters, role of pharmacists and physicians in this area.

**Bruno Bonnemain (France)**: Les sujets d'histoire de la pharmacie que j'étudie en priorité concernent le XIXe et XXe siècle, et plus spécialement l'histoire de l'industrie du médicament de ses origines à nos jours, ainsi que l'évolution des formes pharmaceutiques durant cette période. La publicité pharmaceutique est également un sujet d'intérêt à la fois par la richesse de son iconographie et par les sujets traités à cette occasion.

The subjects of history of pharmacy which are my main interest are related to the 19th and 20th century, and more specifically the history of the pharmaceutical industry from the beginning to nowadays, as well as the evolution of the pharmaceutical formulation during this period. The pharmaceutical advertising is also a subject of interest related to the iconography and art but also to the subjects that are treated at the same time.

**Halil Tekiner (Turquie/ Turkey) :** Les intérêts académiques de Halil Tekiner comprennent l'histoire de la pharmacie dans l'Empire Ottoman tardif et le début de la République turque, ainsi que l'image de la pharmacie à travers l'art et la littérature. Collectionneur passionné et bibliophile, Halil a collecté plus de 3000 objets ou documents associés à l'histoire de la pharmacie, principalement des ouvrages venant du monde entier du XVIIe siècle à nos jours, ainsi que d'autres objets de collection (prescriptions médicales écrites de la main de médecins turcs et de patients célèbres, caricatures, publicités, timbres, timbres premiers jours, et cartes postales).

Tekiner's academic interests include the history of pharmacy in the late Ottoman Empire and early Turkish Republic, together with the historical representation of pharmacy in art and literature. As a passionate collector and bibliophile, he has collected more than three thousand items related to the history of pharmacy, mainly books around the world from 17th century to the present, together with other pharmaceutical collectibles (i.e., handwritten medical prescriptions of famous Turkish physicians and patients, caricatures, advertisements, stamps, first-day covers, and postcards).

**Christoph Friedrich (Allemagne/Germany):**

Main subjects of interest : History of pharmacy from 18th to the 20th centuries ; History of drugs and remedies ; Pharmacy in national socialist Germany and GDR ; Pharmacist biographies ; History of high school pharmacy and pharmaceutical industry ; Cultural history of

pharmacy ; 1993–2010 Project of the German Research Foundation (DFG) on publishing the letter exchange of the pharmacist and high school teacher J. B. Trommsdorff ; 2011–2013 Project of the German Research Foundation (DFG) on digitalisation and deployment of the legacy of Emil von Behring in the worldwide web ; 2016 Project of the German Research Foundation (DFG) on the 3rd supplement volume of the German pharmacist biography.

Les principaux sujets de Christoph Friedrich sont l'histoire de la pharmacie du XVIIIe au XXe siècle ; Histoire des médicaments et des remèdes ; la pharmacie dans l'Allemagne nazie et la RDA ; Biographies de pharmaciens ; Histoire de l'École de pharmacie et de l'industrie pharmaceutique ; histoire culturelle de la pharmacie ; Projet 1993-2010 de la German Research Foundation (DFG) pour publier la correspondance du pharmacien et professeur J.B. Trommsdorff ; Projet 2011-2013 de la DFG sur la numérisation et le déploiement de l'œuvre de Emil von Behring sur le web ; Projet 2016 de la DFG sur le 3<sup>ème</sup> supplément des biographies de pharmaciens allemands.

**François Ledermann (Suisse) :** Centres d'intérêt actuels :

Directeur de la Bibliothèque historique de la pharmacie suisse.

Direction de thèses de doctorat en histoire de la pharmacie.

Histoire de la matière médicale, spécialement autour de la pharmacognosie bernoise du temps d'Alexander Tschirch.

Les pharmaciens et les médicaments du « Grand Tour ». Les représentations de la pharmacie dans les récits de voyage et les textes littéraires. Culte et iconographie des saints Côme et Damien.

Main subjects of interest : Director of the Swiss library of history of pharmacy ; Direction of thesis in history of pharmacy; history of materia medica, especially on pharmacognosy from Betrn at Alexander Tschirsch period ; Pharmacists and drugs of the “Grand Tour”; the figures of pharmacy in travel report and literary texts. Saint Come and Damien's cult and iconography.

**Arman Zargaran (Iran):**

“Based on my education as a pharmacist and also PhD in Traditional pharmacy, my research interests cover a wide range of topics as below. I prefer work in team works to expand the studies.

1- History of Pharmacy in Persia: I am working on all aspects of history of pharmacy in Iran including biographies, historical books, historical formulations, etc.

2- Phyto-pharmaceuticals: It is my specialty. I reformulate and standardize the historical formulations. I find them by reviewing historical books and evaluate their standardized versions with the help of clinicians and other specialists to find new natural products.

3- Persian medicine: I work both on its history and basic sciences.

4- History of medicine in Iran and Islamic civilizations.

4- Ethnopharmacology”

Sur la base de sa formation de pharmacien, les centres d'intérêt de Arman Zargaran portent sur l'histoire de la pharmacie en Perse (biographies, livres anciens, anciennes formulations...), la phyto-pharmacie (reformulation de produits anciens), la médecine perse, l'histoire de la médecine en Iran et dans les civilisations musulmanes, ethnopharmacologie.

**Axel Helmstädter (Allemagne/Germany):** Main interest in the history of pharmacy:

Axel Helmstädter is a part time researcher and lecturer at Goethe University, Frankfurt, Germany. His main interest includes the history of drugs and preparations, the history of complementary and alternative medicine (CAM), and the history of hospital and clinical pharmacy. Recent projects are devoted to the history of drug innovation, drug substitution in WW I, the history of ophthalmic preparations, the history of pharmacokinetics, and the role of exploring botanists in ethnopharmacology.

Axel Helmstädter est chercheur à temps partiel et maître de conférence à l'Université Goethe de Francfort, Allemagne. Son principal domaine d'intérêt concerne l'histoire des médicaments et des préparations pharmaceutiques, l'histoire des médecines alternatives et complémentaires (MAC), et l'histoire des pharmacies hospitalières. Les projets récents ont concerné l'histoire de l'innovation dans le domaine du médicament, des substitutions de médicaments pendant la première guerre mondiale, l'histoire des préparations ophtalmiques, l'histoire de la pharmacocinétique, et le rôle des botanistes explorateurs en ethnopharmacologie.

**Pierre Labrude (France):** « Mon intérêt se porte depuis de nombreuses années sur l'histoire de la pharmacie en Lorraine, et plus particulièrement sur celle de l'enseignement à l'école de pharmacie puis à la faculté, entre 1872 et 1940 ».

My interest since many years is the history of pharmacy in Lorraine region (France), and more specifically the teaching at the school of pharmacy and ultimately at the "Faculté de Pharmacie" (University) between 1872 and 1940.

**Briony Hudson (Angleterre/UK):** Summary of research interests

- British pharmacy schools and education.

Currently focused on the history of the Welsh School of Pharmacy.

- Women's roles in British pharmacy history
- English delftware drug jars
- Jacob Bell (1810-1859), founder of the Royal Pharmaceutical Society of Great Britain.

Particularly interested on his wider connections in art and cultural circles.

- Use of material culture, particularly museum collections, to communicate and teach pharmacy (and wider medical) history

Current research projects:

'Women in Medicine' exhibition, Royal College of Physicians of London, Project Curator (forthcoming, September 2018)

Publication to mark the centenary of the School of Pharmacy and Pharmaceutical Sciences, Cardiff University (forthcoming, 2019)

Les principaux centres d'intérêt de Briony Hudson concernent les écoles de pharmacie et l'enseignement, sujets actuellement centrés sur l'histoire de l'école de pharmacie Welsh, le rôle des femmes dans l'histoire de la pharmacie britannique, les pots de pharmacie anglais de Delft, Jacob Bell (1810-1859) fondateur de la société pharmaceutique royale (plus spécialement sur ses rapports avec les cercles d'art et de culture), usage d'objet culturel, surtout provenant de collections de musées, pour communiquer et enseigner l'histoire de la pharmacie (et plus globalement de la médecine).

Projets de recherche actuels :

Les femmes en médecine, exposition au Royal College of Physicians of London, Curateur du projet (Septembre 2018).

Projet de publication à l'occasion du centenaire de l'Ecole de pharmacie et des sciences pharmaceutiques, Université de Cardiff (2019).

**Baiba Mauriņa (Latvia):**

Baiba Mauriņa is Dean of the Faculty of Pharmacy at Riga Stradiņš University (RSU) since 2008 and Assistant Professor at the Department of Technology of Dosage Forms. She is also a supervisor of several study courses devoted to History of Pharmacy. She defended her PhD thesis "Higher pharmaceutical education: University of Tartu, University of Latvia, Latvian State University, Riga Medical University" in 2008 and is one of co-authors of over 50 publications in last 10 years.

Her research topics include history of Pharmaceutical Education and history of Pharmacy in Latvia in last 50 years. She is a Member of the Board of Latvian Pharmacists' Society and was Pharmacist of the Year 2006 in Latvia.

### **João Rui PITA (Portugal)**

Centres d'intérêt actuels (en general): histoire de la santé et de la santé publique, pharmacie et médicaments ; histoire de la science au Portugal; les relations entre la pharmacie et la société; déontologie et éthique pharmaceutique.

Centres d'intérêt actuels (en particulier): Histoire de l'enseignement pharmaceutique au Portugal, Histoire de la pharmacie d'officine au Portugal, Histoire de la littérature pharmaceutique, en particulier des pharmacopées portugaises (siècles XVIII-XX), Histoire de la réception de nouveaux médicaments au Portugal, Publicité pharmaceutique Déontologie et Éthique pharmaceutique.

### **Anita Magowska (Poland):**

Main interests in the the history of pharmacy: Social and anthropological aspects of pharmacy, medicine and remedies. Traditional herbalism in Poland. Pharmacy and art. Pharmacies and pharmacists in the Polish–Lithuanian Commonwealth.

Current projects: The centenary of the Faculty of Pharmacy of the University in Poznań (1919-2019), Tuberculosis and war.

## **Informations diverses par pays/Information from the countries:**

### **France :**

Comme chaque année, la SHP avec la famille Maurice Bouvet-Henri Bonnemain a doté un prix remis par l'Académie Nationale de Pharmacie, prix décerné cette année à Tithnara Anthony SUN pour sa thèse présentée en juillet 2017 sur "*Le vocabulaire fondamental de la pharmacie au sein de systèmes sociolinguistiques historiquement et géographiquement divers*".

As every year, SHP with Maurice Bouvet-Henri Bonnemain family gave a price under the partnership with the French Academy of Pharmacy, price given this year to Tithnara Anthony SUN for his thesis of July 2017 on "*Le vocabulaire fondamental de la pharmacie au sein de systèmes sociolinguistiques historiquement et géographiquement divers*" (It is related to the various term used for pharmacy in different languages and countries)

### **Allemagne/Germany:**

The finalised doctorate theses/dissertations supervised by Prof. Dr. Christoph Friedrich:

1.Oliver Haupt: Zur Geschichte der Dopingmittel. Pharmazeutische Entwicklung und analytische Nachweismethoden unter besonderer Berücksichtigung der DDR. Erschienen als Band 114 der Quellen und Studien zur Geschichte der Pharmazie, Stuttgart 2017.

2.André Schön: Untersuchungen zu Arzneidrogen und Giften aus den ehemaligen deutschen Kolonien West- und Südwestafrika, vornehmlich an Berliner Instituten. Erschienen unter dem Titel „Vom Pfeilgift zur Arznei. Untersuchungen zu Arzneidrogen und Giften aus den

ehemaligen deutschen Kolonien West- und Südwestafrikas, vornehmlich an Berliner Instituten (1884–1918). Ein Beitrag zur Kolonialpharmazie. Erschienen in den Quellen und Studien zur Geschichte der Pharmazie, Stuttgart 2017.

Another, supervised by Prof. Dr. Sabine Anagnostou:

Marina Franziska Bisping: Dinkel und Weizen. Zwei traditionelle Heilpflanzen. Ebenfalls erschienen in den Quellen und Studien zur Geschichte der Pharmazie, Bd. 112, Stuttgart 2017.

Prof. Dr. Sabine Anagnostou was involved in organization of the 43<sup>rd</sup> International Congress for the History of Pharmacy. Herbs, antidotaria, dispensatories and pharmacopoeias: the story of the pursuit of unification? / History of pharmaceutical organizations. Warsaw 12. – 15. September 2017 (Scientific committee).

Biennial Congress of the DGGP e. V. was organized 7.– 8. April 2018 in Lindau: bilateral Congress with the Swiss Society for the History of Pharmacy (Schweizerischen Gesellschaft für Geschichte der Pharmazie; SGGP) statt. Topic: Pharmazie: Vom Handwerk zur Wissenschaft (Pharmacy: From Craftmanship to Science).  
<https://sites.google.com/site/dggphomepage/Home/veranstaltungen>

### Angleterre/UK:

Briony Hudson new roles and activities :

The Petticoat Perill: a brief history of women in pharmacy. Guildford Inner Wheel, 10 October 2017 – lecture/teaching.

A is for Alcohol, Ether or Beer?: student experiences at The Square UCL School of Pharmacy, 29 November 2017

History of Pharmacy and the Pharmaceutical Industry 3 day course (Joint Course Director) , Society of Apothecaries, 6-8 December 2017

Deputy President of the Faculty for the History and Philosophy of Medicine and Pharmacy, Worshipful Society of Apothecaries, London  
Conference Organiser, British Society for the History of Pharmacy

‘Women in Medicine’ exhibition, Royal College of Physicians of London, Project Curator (forthcoming, September 2018)

Publication to mark the centenary of the School of Pharmacy and Pharmaceutical Sciences, Cardiff University (forthcoming, 2019)

## Roumanie/Romania :

### Scientific Report

During the year 2017, members of the AIHP, members of the Romanian Society of History of Pharmacy (SRHP), they continued their organizational and scientific activity each quarter as follows:

- 1- the annual National Assembly of the SRHP and the quarterly Scientific Session, Bucharest Section, 1st quarter, 31.03.2018; II trim. July 8th, 3rd and 4th trim. Oct. 21, 2017;
- 2- participation in the monthly scientific sessions of the Romanian Society of History of Medicine (SRHM) since the month of March to November;
- 3- sessions of the Association of Reserve Officers and Physicians (AMFOR, in Romanian), from March to November 2017;
- 4- the XXVI National Meeting of History of Pharmacy, with international participation (from Serbia and Republic Moldova), Drobeta- Turnu Severin, 25-27 May 2017.

### Rapport scientifique

Au cours d'année 2017, les membres de la AIHP, membres de la Société Roumaine d'Histoire de la Pharmacie (SRHP), ils ont poursuivi leur activité organisationnelle et scientifique chaque trimestre comme suit:

- 1- l'Assemblée nationale annuelle de la SRHP et la Session scientifique trimestrielle, Section de Bucarest, I<sup>er</sup> trimestre, 31.03.2018; II<sup>e</sup> trim. le 8 Juillet, III<sup>e</sup> et IV<sup>e</sup> trim. le 21 oct.2017;
- 2- participation aux sessions scientifiques mensuelles de la Société Roumaine d'Histoire de la Médecine (SRHM) depuis le mois du Mars à Novembre;
- 3- les sessions de *l'Association des Médecins et des Pharmaciens Officiers de Réserve* (l'AMFOR, en roumain), de Mars à Novembre 2017;
- 4- la XXVI<sup>e</sup> Réunion Nationale d'Histoire de la Pharmacie, avec participation internationale (de Serbie et de la République Moldova), à Drobeta- Turnu Severin, 25-27 Mai 2017.

University guests from the Faculty of Pharmacy of Belgrade: Kerničan Leontina, Adriana-Elena Tăerel (Bucharest), **Krajnović Dušanka**, Ana Carată (Bucharest), Arsić Jasmina, Manojlović Jelena.

Des invités universitaires de la **Faculté de Pharmacie de Belgrade**: **Kerničan Leontina**, Adriana-Elena Tăerel (Bucarest) **Krajnović Dušanka**, Ana Carată (Bucarest), **Arsić Jasmina**, **Manojlović Jelena**.

Participants from Bucharest and Roman (Romania); Pharmacist Prof. Ass. Dr. **Tamara Cotelea** (1) and Prof. Ass. Dr. Pharmacist **Alexander Znogovan** (7), Kichinev (Republic of Moldova).

Participants de Bucarest et Roman (Roumanie); Pharmacienne Prof. Ass. Dr. **Tamara Cotelea** (1) et Prof. Ass. Dr. Pharmacien **Alexander Znogovan** (7), Chișinău (la République Moldavie).

5- Partners: Romanian Society of History of Medicine (SRHM), Romanian Society of History of Pharmacy (SRHP), Association of Doctors and Pharmacists Reserve Officers (AMFOR, in Romanian), The XLVI National Meeting of History of Medicine and Pharmacy. The 7th Hypocratic Symposium, Bucharest, from 22 to 24 June.

6- Biennial Conference, The Body Politics: The State of Medicine and Health, European Association for the History of Medicine and Health (EAHMH), Bucharest, 30 August-2 September 2017.

7- 43rd International Congress of History of Pharmacy, Warsaw 12-15 September 2017, two works, first author, A.-El. Tăerel (Bucharest).

5- **Partenaires:** Société Roumaine d'Histoire de la Médecine (SRHM), Société Roumaine d'Histoire de la Pharmacie (SRHP), Association des Médecins et des Pharmaciens Officiers de Réserve (AMFOR, en roumain), *La XLVIe Réunion Nationale d'Histoire de la Médecine et de la Pharmacie. Le VIIème Symposium Hypocratique*, Bucarest, de 22 à 24 Juin.

6- Biennale Conférence, *The Body Politic: States in the History of Medicine and Health*, European Association for the History of Medicine and Health (EAHMH), Bucharest, 30 August-2 September 2017.

7- 43ème Congrès International d'Histoire de la Pharmacie, Varsovie 12-15 Septembre 2017, deux œuvres, premier auteur, A.-El. Tăerel (Bucarest).

**Drafted / Rédigé:**

Ana CARATĂ- Président d'Honneur et Secrétaire général de la SRHP, Adriana-Elena TĂEREL, Président de la SRHP.

**Switzerland/ Suisse**

Regula Willi-Hangartner, Claudia Zerobin Kleist and François Ledermann are acting in the Foundation Board of the “Historical Library of the Swiss Pharmacy”. With more as 6000 items, the Library is an important instrument for historical research in the natural, medical and pharmaceutical sciences in Switzerland. See [http://www.img.unibe.ch/dienstleistungen/bibliothek/historische\\_bibliothek\\_der\\_schweizer\\_pharmazie/index\\_ger.html](http://www.img.unibe.ch/dienstleistungen/bibliothek/historische_bibliothek_der_schweizer_pharmazie/index_ger.html).

Organization de reunions scientifiques, expositions, etc. (organization ou co/organization avec João Rui Pita)

Exposition: Peças com história da Faculdade de Farmácia da Universidade de Coimbra

—Faculdade de Farmácia da Universidade de Coimbra. Inauguration: 18 janvier 2017

VII Jornadas Nacionais de História e Filatelia

—Centro de Estudos Interdisciplinares do Século XX da Universidade de Coimbra – CEIS20. 27 janvier 2017

Workshop “Nós portugueses somos quem? A nossa identidade apresentada em workshop

—Centro de Estudos Interdisciplinares do Século XX da Universidade de Coimbra – CEIS20. 3 mars 2017

4º Colóquio Interdisciplinar sobre o Envelhecimento

—Instituto de Investigação Interdisciplinar da Universidade de Coimbra. 17 mai 2017

Simposium: Portugueses na ciência europeia: de Amato Lusitano a Egas Moniz (programme du II Colóquio Internacional de la revue *Debater a Europa*, 15-16 mars 2017 )

—Biblioteca Geral da Universidade de Coimbra. 16 mars 2017

18º Colóquio Internacional Temas de Cultura Científica “Corpo, genes e memes”

—Centro de Estudos Interdisciplinares do Século XX da Universidade de Coimbra – CEIS20. 24 juin 2017

VIII Jornadas Internacionais História da Loucura, Psiquiatria e Saúde Mental / *VIII International Meeting History of Madness, Psychiatry and Mental Health*

—Secção Regional do Centro da Ordem dos Farmacêuticos. 8-10 mai 2017  
5º Colóquio Interdisciplinar sobre o Envelhecimento

—Instituto de Investigação Interdisciplinar da Universidade de Coimbra-III, Portugal. 17 mai 2017

Conference: Dr<sup>a</sup> Sílvia Vilar Gonzalez — “Maternidad subrogada o gestación por sustitución”

—Faculdade de Farmácia da Universidade de Coimbra, Portugal. 5 juin 2017

19º Colóquio Internacional Temas de Cultura Científica “Corpo, texto e contextos”

—Centro de Estudos Interdisciplinares do Século XX da Universidade de Coimbra – CEIS20. 12 juin 2017

20º Colóquio Internacional Temas de Cultura Científica “Doenças marginalizadas: pós-pólio, stigma e baixa prevalência”

—Centro de Estudos Interdisciplinares do Século XX da Universidade de Coimbra – CEIS20. 14 juin 2017

Exposition: O universo luminoso dos cosméticos

—Faculdade de Farmácia da Universidade de Coimbra. Inauguration: 27 juillet 2017

6º Colóquio Interdisciplinar sobre o Envelhecimento

—Instituto de Investigação Interdisciplinar da Universidade de Coimbra-III, Portugal. 25 septembre 2017

7º Colóquio Interdisciplinar sobre o Envelhecimento

—Instituto de Investigação Interdisciplinar da Universidade de Coimbra-III, Portugal. 26 octobre 2017

Conference: Prof<sup>a</sup> Doutora Aliete Cunha-Oliveira — —Dentro e fora de casa: O HIV-SIDA, uma epidemia em curso desde os anos oitenta do séc.XXI

—Faculdade de Letras da Universidade de Coimbra, Portugal. 7 novembre 2017

VIII Jornadas Nacionai de História e Filatelia

—Academia Portuguesa da História, Lisboa. 13 novembre 2017

Conference: Prof<sup>a</sup> Doutora Maria Idoia Ugarte Gurrutxaga — —Dentro y fuera de casa: la dimensión sociocultural del VIH/SIDA

—Faculdade de Letras da Universidade de Coimbra, Portugal. 14 novembre 2017

Semana da Ciência e da Tecnologia 2017 - Exposition: O universo luminoso dos cosméticos (visites guidées e conferences)

—Faculdade de Farmácia da Universidade de Coimbra. 20-22 novembre 2017

Conference: Prof<sup>a</sup> Doutora Manuela Alvarez — —A geografia do genoma: o contributo da genética das populações para a construção de um passado coletivo

—Faculdade de Ciências e Tecnologia da Universidade de Coimbra, Portugal. 29 novembre 2017
